

2014 Annual Report

"... to protect and serve the people of Warren ..."

The Honorable James R. Fouts Mayor

RE:

2014 Annual Report

Mayor Fouts,

WARREN FIRE DEPARTMENT

23295 Schoenherr Warren, MI 48089 (586) 756-2800 www.cityofwarren.org

The responsibilities of the Fire Commissioner encompass providing an annual report to elected officials as mandated by the City Charter. I hereby submit the Fire Department Annual Report for the year ending December 31, 2014.

During 2014 the department responded to 16,547 alarms for the year representing an increase of 1,034 incidents or a 7% increase over 2013 totals. Of these responses, 11,284 were emergency medical incidents representing 68% of all emergency incidents responded to by the department. The department also responded to three hundred twenty-one (321) fire incidents of all types during the year with the remainder of responses classified as general responses and totaling four thousand nine hundred forty-two (4,942) incidents. Total incident responses for all companies amounted to 30,530 alarms requiring emergency responses from fire apparatus of all types depending upon the type of incident reported and responded to. There were ten (10) reportable civilian injuries and one (1) civilian fatality during the year as well as thirty-three (33) serious injuries to firefighters resulting in 47 lost duty days of work or 1,128 total hours that firefighters were unavailable for assignment.

Estimated fire losses for the year 2014 exceeded \$3.9 million dollars in real property losses and \$1.5 million in personal property losses during the year. There were twenty-eight (28) fires where the estimated total loss was greater than \$25,000.00 of, which five (5) exceeded \$100,000.00 in real property losses. The most significant fire incidents during 2014 occurred on July 12, 2014, at 22001 Hoover with the business name of Metro Sanitation Transfer Station and on September 10, 2014, at 31502 Schoenherr with the business name of Williamsburg East Apartments. On the Metro Sanitation fire, the department was dispatched to a report of a building fire at this location. Fire crews arrived to find the transfer station structure fully involved in fire creating large amounts of smoke and other products of combustion. The transfer station structure was approximately 75 feet wide 600 feet long and 125 feet tall and fully involved in fire. Fire crews were able to extinguish most of the fire within 24 hours however fire crews remained on the scene for the next two (2) days extinguishing hot spots and performing air quality monitoring. On the Williamsburg East apartment fire, fire crews responded to a report of fire in an apartment with residents trapped on upper floors of the apartment building. Fire crews arrived to find heavy smoke and fire venting from the front and rear of the structure. The fire was contained to the structure of origin however their was significant fire, smoke and water damage to multiple units temporarily displacing four (4) families from their apartments. The most significant event affecting the fire department was the flood of August 11, 2014. The department responded to greater than three hundred (300) incidents of all types including multiple electrical fires and victims trapped in cars, homes and businesses including the rescue of approximately ninety (90) victims who were trapped at Buddy's Pizza on Van Dyke at Chicago. As a result of the flooding event the department suffered moderate to severe damage to our apparatus fleet and extensive damage to twentytwo (22) monitors and other equipment, which thus far has required replacing our entire fleet of front

line EMS transport squads at a cost of \$726,000.00 and approximately \$180,000.00 to replace twenty-two (22) monitors. The department is currently awaiting a determination by FEMA regarding the potential need to replace our heavily water damaged Heavy Rescue at an estimated cost of \$650,000.00.

On a more positive note, the department was awarded an Assistance to Firefighter Grant (AFG) in the amount \$62,250.00 which will be used to purchase personal protective equipment (PPE) for firefighters. Additionally, the departments EMS treatment and transport service continues to meet budget projections for revenue generation and as of December 31, 2014, total revenues generated are greater than \$11.8 million dollars which are being used by the City to offset operating costs of delivering city services. The SAFER grant that was awarded in December of 2012, and implemented in June of 2013, continues to meet expectations by eliminating station closures and apparatus and out of service, which improves the delivery of emergency and non-emergency service to residents and business owners. The SAFER grant also has allowed the department to reduce overtime costs by almost \$500,000.00 when compared to the previous fiscal year totals.

As Fire Commissioner, I would like to again recognize the men and women of the Warren Fire Department for continuing to uphold the finest traditions of the fire service. They do this in a manner which instills trust by the citizens and business owners of our community and as representatives of the department and the city of Warren. In addition, I would like to recognize the efforts of the administrative staff, including the efforts of Deputy Fire Commissioner and Deputy Fire Chief, as well as the Command Staff, who provides direct supervision and direction to the workforce. I would also like to acknowledge the efforts of the secretarial staff whom without their knowledge and dedication in performing the administrative functions which are critical to ensuring that the Fire Commissioner, command staff and all uniformed personnel are able to accomplish the department's mission of protecting the lives and property of the citizens, business owners and visitors to the great City of Warren Michigan.

I, as well as the entire workforce of the department, look forward to 2015 and the challenges it will present in continuing to deliver the high level of dedicated and professional services that the community has come to rely upon. I am also extremely confident that with the continued support of the Mayor and City Council the fire department will be able to protect the lives and property of residents, business owners and visitors to our community while also incorporating the vision of elected officials into evolving mission of the fire department in the most cost efficient and effective model possible.

Professionally,

Wilburt McAdams Fire Commissioner

Statements of Purpose

Mission Statement

The mission of the Warren Fire Department is to serve and protect the citizens of Warren and their property by providing a professional response in the areas of Fire Suppression, Emergency Medical Services, Hazardous Materials Incidents, Technical Rescue Incidents, Fire Prevention and Public Service.

Policy Statement

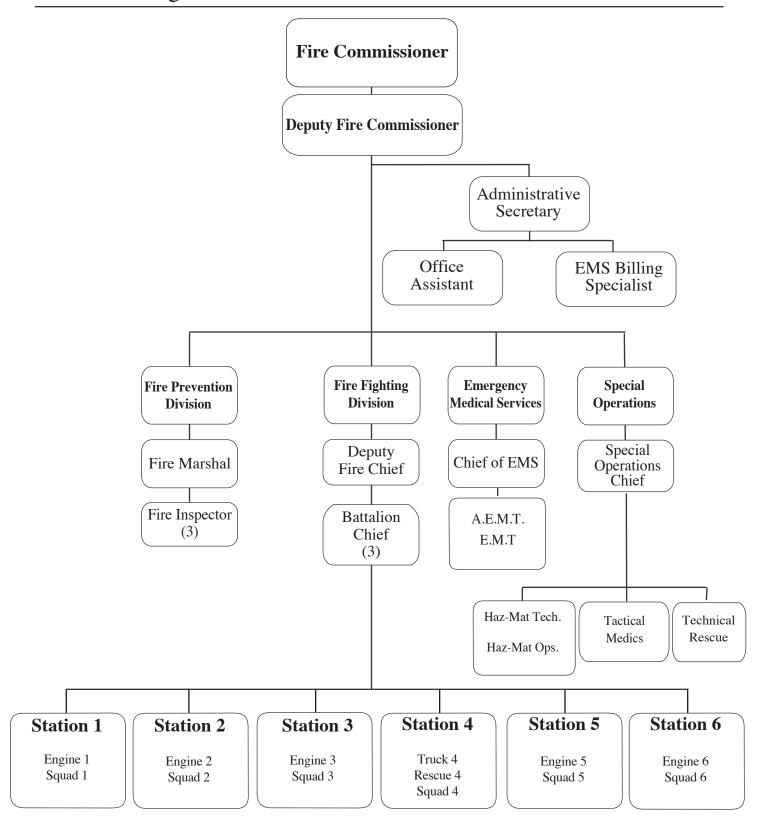

The Warren Fire Department will accomplish its mission by responding to any emergency situation which threatens Life, Safety, or Property. In cases where the Warren Fire Department is not the appropriate agency, is not capable of delivering the needed assistance, or if the situation is not a true emergency, an attempt will be made to place the caller in contact with the appropriate agency. The Warren Fire Department will dispatch the closest available unit or units with the capability to mitigate an emergency situation. The judgement of both dispatch and emergency personnel is an intergral part of the decision process.

Values Statement

- <u>Service</u> We will be responsive to the needs of our community working to provide high quality service in a respectful and courteous manner.
- 2. <u>Integrity</u> Our actions and decisions will embody honor, ethics, truthfulness and trustworthiness.
- 3. <u>Safety</u> We will endeavor to create and maintain a safe working environment for the members of our department and the citizens we encounter in our profession.
- 4. <u>Teamwork</u> We will establish and maintain good working relationships within our department, with our mutual aid partners, and with other agencies we encounter in our service.
- 5. <u>Professionalism</u> We endeavor to maintain high professional standards as we serve the citizens in our community, City of Warren and the Warren Fire Department through compliance with recognized policies, guidelines, rules and regulations.
- 6. <u>Development</u> We will grow through high quality training and education on a daily basis, increasing our effectiveness by broadening our professional potential and encouraging future leaders from within our department.

2014 Annual Report

ANALYSIS OF STATISTICS

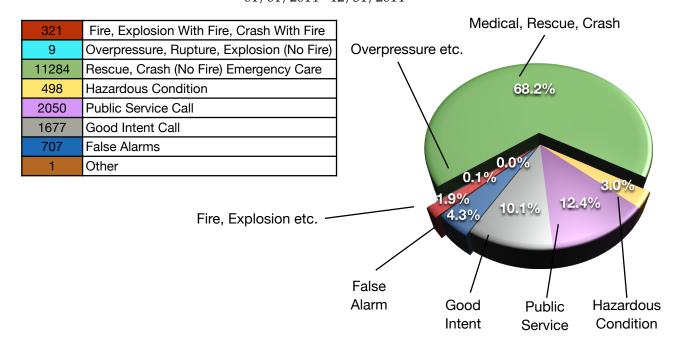

In 2014 the Warren Fire Department had thirteen apparatus that responded to emergencies within our city and to surrounding communities during times of major incidents. These apparatus are comprised of five engine companies, one ladder truck, one rescue and six squads. In addition, our fleet contains two engines, one squad and one ladder truck in reserve to fill-in for our front line apparatus that are out of service for maintenance or repairs.

The Warren Fire Department responded to 16,547 incidents in 2014 which represents a 6.7% increase in run volume as compared to 2013. Since some incidents are more severe and require multiple companies, our total company responses for 2014 was 30,530. Overall, our incident totals are up 31% over the past 5 years and 56% over the past decade.

The following pages contain statistical information for the 2014 year. This information has been reported in several ways to provide a more complete and accurate accounting of incident response numbers and times.

MUTUAL AID REPORT

The Warren Fire Department responded to requests for mutual aid assistance in accordance with standing mutual aid agreements. Aid is rendered or received based on a predetermined matrix that takes into account the requesting agency, the location of the incident and the level of the alarm. First alarm incidents are generally managed within each individual department. Last year, the Warren Fire Department entered into a different kind of mutual aid pact with Roseville to provide reciprocal EMS transport. During 2014, the Warren Fire Department provided mutual aid 48 times and received mutual aid 10 times.

Priority 4 Total	269	264	257	294	+37
	10,385	10,169	10,775	11,226	+ 451

Chief of EMS

As you are aware, I was promoted to the position of Chief of EMS March 3, 2014. In this position I am primarily responsible for all of the emergency medical training for the Paramedics and EMTs of the Warren Fire Department. As such, I am required to maintain a Paramedic license and obtain an Instructor Coordinator(IC) license issued by the Michigan Department of Community Health. I have completed the IC course and await state testing in early 2015. I am also responsible for maintaining the license of the Warren Fire Department as an Advanced Life Support provider. I must also maintain, with the State of Michigan, our EMS Continuing Education(CE) Program Sponsorship. After much information gathering and organization of information, our department received a 3 year renewal to our certification in August of this year. Being a CE Program Sponsor allows us to be more flexible with our training dates. This better suits our shift schedules and allows the majority of our training to be accomplished while personnel are on duty.

EMS Training/Education

The Michigan Department of Community Health requires Paramedics and EMTs to obtain a certain number of continuing education credits in various topics throughout their respective

2014 Annual Report

licensing periods. There were 4401 man hours of EMS training in 2014. Last year, 32 Paramedics and 13 Basic EMTs renewed their licenses through the continuing education classes held by the Warren Fire Department. All Paramedics are ACLS certified (Advanced Cardiac Life Support) as mandated by Macomb County Medical Control Authority Protocols and continue to receive their recertification at Fire Department Headquarters every 2 years. EMS training at the Warren Fire Department was implemented on a biweekly basis in 2014. With the addition of 6 new Instructor Coordinators, giving us a total of 9, we are able to provide a wide variety of medical training throughout the year to ensure that our Paramedics and EMT's remain well rounded with their continuing education.

Personnel

There currently are 82 Paramedics, 44 Basic EMT's, and 2 Medical First Responders. We added 3 paramedics to our department in 2014 and we are finding that they are very ambitious, fitting in well, and representing the Warren Fire Department as young, professional "go-getters" that are eager to learn and proud to be working among some of the best in the business.

EMS Transport

The WFD continues to prove that transport has been a resounding success, since taking over from private EMS. 2014 proved to be a progressive year for the fire department. We continued to maintain 5 ALS (Advanced Life Support) Engine Companies, while increasing the license level of our heavy rescue vehicle to provide ALS service from our sixth station. With support of 6 transporting Squads, the citizens of Warren continue to receive emergency care that is second to none in this region of the state. Through collections using a third party billing company, we've been able to generate revenue to the City of Warren in excess of \$12,000,000 since transport resumed.

2014 Annual Report

Innovations and Accomplishments

During 2014, a few very exciting things transpired in the EMS division. Due to a catastrophic flood in the month of August, the need arose for the replacement of our entire transporting ALS fleet. Through much hard work and cooperation, not only in the fire department administration, but also at city hall, we did indeed acquire 6 brand new Alpha rigs. They were fully equipped and began going in service late in the year, giving our citizens peace of mind that in their time of dire need, we are able to provide comfortable and reliable transportation to the emergency room. Also, the WFD participated in a mockdisaster drill that simulated a motor coach bus filled with senior citizens rolling over on I-696. The drill was acted out in a table-top manner using cue cards in separate rooms at the old Bi-County hospital. This training not only helped us to prepare for the unthinkable, but it also gave us the opportunity to work with other agencies and departments throughout the county. We, once again, displayed complete professionalism and set the standard for the smaller departments in the county to follow. I received many compliments from neighboring fire departments on how well our crews handled this disaster incident. Finally, we have been awarded, in conjunction with St. John Macomb Hospital in Warren, the Silver Mission Lifeline Award by the American Heart Association for exceptionally short door-toballoon times we have provided for our citizens and visitors alike. Many, many lives have been saved due solely to the fast, dedicated, knowledgeable Paramedics and EMT's of the Warren Fire Department and advanced equipment available to them. They are second to none!

Tactical EMS

As Chief of EMS and being responsible for all EMS training, I am responsible for the additional training needed for the 9 member Tactical EMS Team. The Warren Police Special Response Team continues to enjoy the Tactical EMS duties that WFD Tactical Medics provide. 9 of our paramedics have taken the required additional EMS classes (Pre-Hospital Trauma Life Support and Pediatric Advanced Life Support) and have attended and successfully passed the actual tactical training. The Warren Fire Departments Tactical EMS Team puts in countless training hours and participates in numerous practice drills to stay sharp and at the ready when our police department responds to an incident. They are able to assist Warren Police in a variety of situations such as: high risk warrants, hostage rescue, barricaded suspects, sniper situations, armed fugitive arrests, civil disturbances, and

2014 Annual Report

clandestine drug labs. Our team has set the bar high and other nearby departments are now modeling their team after us. This kind of commitment is unique to the eastern section of our country as we continue to provide a service to our brothers and sisters in blue and our community.

For the Future

My goal remains to train and certify all the paramedics in PHTLS (Pre-Hospital Trauma Life Support) and PALS (Pediatric Advanced Life Support) prior to the end of this year. I will continue to provide our members with improved and innovative equipment, allowing them to continue providing quality care to the citizens of Warren. I will assure our Tactical Medics will continue to support the Warren Police Emergency Response Team, in a safe and professional manner. I will continue to represent the Warren Fire Department EMS Division in a professional manner, providing leadership and support.

Respectfully,

Amy I Hart Chief of EMS

2014 Annual Report

2014 EMS Transport Receipts

The Warren Fire Department EMS treatment and transport service generated more than \$2.8 million in gross receipts during the 2014 calendar year. These receipts are used to offset and subsidize the cost of providing fire and emergency medical service to residents, business owners and visitors to our community. Although the revenues generated by the department are significant, the total cost of providing fire department emergency response averages \$21 million on a fiscal year basis.

Month	Beginning Balance	Ending Balance	Revenue
January	\$1,004,648.00	\$1,257,479.00	\$252,831.00

2014 Annual Report

Fire Prevention Division

In 2014, the Fire Prevention Division continued to perform the 3 main duties of Fire Prevention; community education, fire code enforcement and fire investigation.

With our additional Fire Inspectors, we again increased the number of annual inspections conducted by the division in 2014. In addition to annual inspections, we performed certificate of compliance inspections for compliance with the adopted fire code. We performed acceptance tests on fire suppression and alarm systems. We reviewed site plans, building plans, alarm system plans and fire suppression system plans for fire code compliance. We investigated citizen complaints. We provided Phase One Environmental Reviews, Community Development Block Grant reports and processed FOIA requests as needed. We were instrumental in getting over 250 Knox Boxes installed on commercial buildings while enforcing Warren's Fire Department key box ordinance. There are now approximately 880 Knox boxes installed on buildings throughout Warren.

We were able to get all three Fire Inspectors enrolled in the Michigan State Police Basic Fire Investigation School in 2014. Now all members of the Fire Prevention Division are credentialed in fire investigation. We reinstated the department policy of calling in personnel to investigate fires after hours. Together with the Warren Police Department, detectives, we investigated arson fires and assisted them in the prosecution and conviction of the perpetrators. We also investigated accidental fires to ascertain if specific household or commercial appliances and devices create an inherent risk of starting fires.

We continued to educate the public in fire safety, both in schools and in other community arenas. Our elementary school Fire Prevention Week classes were very popular in 2014, again providing classes for preschool, elementary school and even high school students. With our additional personnel, we were able to extend our public education to senior citizen groups this year as well.

In 2014, Warren again participated in the State of Michigan Fireworks Inspection Delegation program. The inspection delegation program allows the fire department to be actively involved in inspections of fireworks retail sales locations, enabling us to monitor storage and sales of consumer fireworks.

2014 Annual Report

The inspection numbers below are based on the Fire Inspector Activity Report:

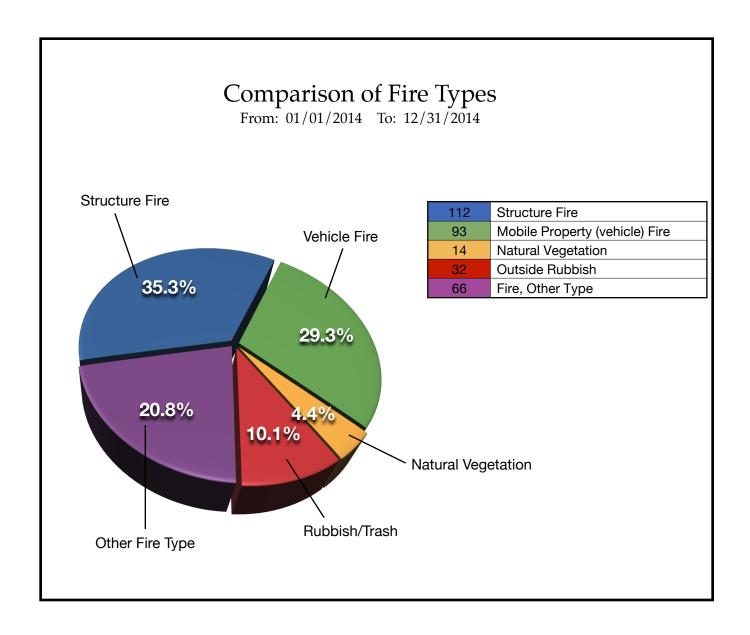

Inspe	ection Number and Type	Number of Reports
1.	Certificate of Compliance	355
2.	Annual Inspections	653

27	Carbon Monoxide
1	Other including BIO-hazards/Unknowns

Haz-Mat Responses

5%

Hazardous Materials Training

During 2014, Warren's Hazardous Materials Team consisted of 29 members. Of the 29, nine members were added this year. The 80-hour Haz/Mat Technician Training was done at no cost to the city and was facilitated by the International Fire Fighters Association. The city team received 652 man hours of training in eight training sessions.

Macomb County Hazardous Materials Response Team

Warren is one of four sponsoring agencies for the county team. The county team consists of 40 Haz/Mat technicians, nine of which are Warren Fire Department Haz/Mat Technicians. The county team members participated in three training sessions for a total of 60 man hours. All of the departments involved continue to maintain their individual hazardous materials response capabilities. The county team was deployed twice in 2014.

New Equipment Acquisitions

On August 11, 2014 the Warren Fire Department and the City of Warren experienced a torrential rain storm and epic flooding. During that incident more than \$150,000.00 in hazardous materials equipment and monitors and a heavy rescue vehicle, valued at \$350,000.00, were destroyed. The equipment has been replaced with funds from insurance.

Special Operations Division

Technical Rescue

In 2014, the Warren Fire Department responded to 21 incidents identified as involving some type of technical rescue expertise.

0	Partial/Total Building Collapse
8	Confined Space Rescue/Elevator Rescue
9	Vehicle Extrication/Hurst Tools
1	Forcible Entry/ Difficult/Resilient
3	Trench Rescue

Tech Rescue Responses

Technical Rescue Training

During 2014, the 20 member Warren Tech Rescue Team received 316 man hours of training in six training sessions. Jay-Dee Contractors sponsored a Department of Labor Tunnel Confined Space 12 hour refresher class. 11 members of our department received this training. This will allow us to conduct a tunnel rescue in the county's drain project if need be. These 11 members are certified nationally and may be called upon to assist in tunnel and cave rescues across the nation.

Macomb County Technical Rescue Team

The Macomb County Tech Rescue Team is a combined team and has been deployable for the past three years. The team is comprised of 45 rescue specialist trained personnel from around the county. There are nine personnel from Warren on the county team. This cooperative effort will bring additional monies for training and equipment to our departments. All of the departments will continue to maintain their individual tech rescue response capabilities. The members of the county team had two training sessions in 2014 for a total of 24 man hours of training.

Michigan Task Force One Team

In 2014, the Warren Fire Department currently has two members on the Michigan Task Force One Team. They will be used state wide if they are needed. The two members had 64 man hours of training in four sessions.

New Equipment Acquisitions

On August 11, 2014 the Warren Fire Department and the City of Warren experienced a torrential rain storm and epic flooding. There was approximately \$9,200.00 in tech rescue equipment destroyed or damaged. The equipment has been replaced with funds from insurance.

Annual

Special Operations Division

Special Response Team

In 2014, the Warren Fire Department Special Response Team (SRT) responded to 16 incidents with the Warren Police Department. The department SRT provides emergency trauma medical support for police officers and victims during police incidents. Some examples of the types of incidents the SRT responds to are, barricaded gunmen, drug raids and serving arrest warrants.

SRT Training

During 2014, Warren's Special Response Team consisted of nine members. The nine members received, in excess of, 108 man hours of training in 12 training sessions. One of the training sessions was three days at the Combat Readiness Training Center in Alpena, Michigan. The training session included exercises in terrorist, school, and work place attacks of violence.

New Equipment Acquisitions

In 2014, the Special Response Team purchased five mobile radios w/chargers and had the specialized response vehicle refurbished. The vehicle was provided by the United States Department of Defense, free of charge. The refurb consisted of, new paint, seats, tires, rear heat, emergency lighting, hard top, spot light and an infrared camera. The vehicle will be used for SRT search and rescue at SRT incidents. All radios and refurb were paid for with MMRS grant monies.
