WARREN FIRE DEPARTMENT TO CELEBRATE GRAND OPENING OF NEW FIRE STATION NO. 5

DATE: Wednesday, July 30, 2025

LOCATION: Parade begins at 29900 Hoover Road (at Common Road) and ends at 30619 Schoenherr Road, Warren, MI

The City of Warren and the Warren Fire Department invite members of the media to cover the grand opening of the new Fire Station No. 5 - a modern, purpose-built facility designed to support the department’s expanding mission and enhance emergency response for the city’s northeast side.

This celebration will include a ceremonial apparatus parade, a formal dedication ceremony, and a community open house with tours and displays. The day also pays tribute to the proud legacy of the original Station 5 - “Consigney Hall” - which opened in 1958 and faithfully served the community for more than 67 years.

Event Schedule

10:00 AM - Flag Lowering Ceremony & Apparatus Relocation Parade

Apparatus including Engine 5, Squad 5, and Squad 7 will depart the original Fire Station No. 5 (29900 Hoover Rd), travel east on Common Road, then north on Schoenherr to the new station.

11:00 AM - Grand Opening & Dedication Ceremony

Remarks from Mayor Lori M. Stone, members of the Warren City Council, and Fire Department leadership.

12:30 PM - 7:00 PM - Community Open House

Facility tours, equipment displays, firefighter meet-and-greets, and a historical exhibit celebrating the legacy of Station No. 5, including archival photos and memorabilia.

Media Coverage Encouraged

Media planning to attend are asked to RSVP to Melissa Hopkins at mhopkins@warrenfiredept.org or (586) 756-2800 ext. 3110.

Media parking will be available in the north lot of the PACE Building, located at 30713 E. Schoenherr Road, near the new station.

For additional questions, please contact:

- Fire Commissioner Wilburt "Skip" McAdams – wmcadams@warrenfiredept.org | (586) 756-2800

- Clarissa Cayton, Communications Director – ccayton@cityofwarren.org | (586) 258-2000

A Living Legacy

From its original groundbreaking in 1957 to its evolution as a regional hub for fire protection and leadership, Station No. 5 has been a cornerstone of public safety in Warren. The new facility incorporates advanced technology, firefighter wellness design, and modern emergency response capabilities, standing as a lasting tribute to the generations of brave men and women who have served.
